

Children in our kindergarden:

From the age of 3 children with developmental delays receive intensive support and tutoring, e.g. in the fields of language, motor skills, self-reliance, perception, mental or emotional and social development.

Our Groups:

7 to 9 children of different age and different stages of development learn and play in our four groups - the "Tigers", "Bears", "Elephants" and "Mice" Groups.

A remedial teacher (in the morning), a qualified educational worker (in the afternoon), a qualified child care worker and a trainee (both in the morning and afternoon) guarantee best individual support and tutoring.

A special education teacher and a psychologist set up initial and follow-up diagnostics. The curative and remedial services offer additional individual supportive tuition and education measures in favor of the children's development.

Tuition and education comprises:

After detailed diagnostics we set up an individual education plan for each child.

Special emphasis is put on individual support for developing every-day life skills.

More Areas of support:

- Music and Creativity
- Mobility training (outdoors, in the gym or in our indoor therapy pool)
- Speech Therapy
- Live and experience community in small groups (learn rules, experience themselves and others)
- Perception training / Learning with all senses
- Increasing concentration and power of endurance
- Pre-school education to prepare our children for the appropriate type of school respectively
- Basal stimulation for children with severe and / or multiple disabilities
